

03/16/2020

Dear Parents/Guardians:

We understand most people are feeling a little anxious with the events unfolding day to day. We remain vigilant with disinfecting, hand washing, etc. and have trained our staff to identify the symptoms of the Coronavirus. Unfortunately, with allergy season also upon us we don't want you to be alarmed if you see children coughing or sneezing at the center. We are attentively looking for the presence of dry, non-productive, coughs, fever or shortness of breath.

Once again, we are remaining open for working families that need care. We will continue taking all the necessary precautions to limit the risk of infection while offering normal instruction and care. If we are mandated to close by the state, we will notify parents by text and email. If any of your contact information has changed recently, please be sure to let the office know to ensure we are able to communicate with everyone in an efficient manner.

Thank you for trusting Wee Kids!

Dave
