

Wee Kids Early Learning Center

Coronavirus/ COVID19 Update

03/14/2020

Dear Parent/Guardians,

As many of you already know, the Burlington County Health Department has closed all public schools in Burlington County. At this point, Wee Kids will remain open for our families. In an effort to stay open and minimize any risk to our families, we need to take extra precautions.

We are asking our families to:

- limit the number of guests that you bring into our facility during pick up and drop off times
- not to come to the center if you have any of the documented symptoms of the coronavirus
- continue to follow our sickness policy and keep your children home if anyone in your home is not feeling well
- limit unnecessary touching of any surfaces in the center
- disinfect your hands by using the sanitizer before checking your child in or out

Our staff will:

- continue to disinfect hard surfaces hourly
- encourage children to frequently wash hands
- wash our own hands frequently
- wash and sanitize toys regularly
- do our best to allow parents to make up any scheduled days missed.

This is a difficult time for you, our families, and for everyone you trust to provide care and instruction for your children. We hope that everyone stays safe and healthy as we navigate through this unusual circumstance.

Sincerely,

Dave Goldstein
Owner, Wee Kids Early Learning Center
